Welcome to the 4th World Congress!

Building on the tremendous success of the first three world congresses, we are so happy it's time to meet again to share knowledge in this cutting edge, trans-disciplinary and exciting forum. We have a congress venue right in the heart of Copenhagen with four lecture halls and large room for posters and informal collaborative discussions.

An educational session in the beginning of the meeting offers an introduction to the field across technologies and applications. We support students and young investigators with more than 35 travel grants. Abstracts are welcome now – and May 15th at the latest!

New Pre-Congress Educational Session

For newcomers to the field, we offer an introduction to electroporation and pulsed field technology prior to the congress with great lecturers and time for discussion.

Everyone is welcome. The educational session takes place from Sunday October 9 from noon to 5 pm.
